Site is land (w/water) present involving relatively wide, massive components coupled with a very marked vertical element.

## Sum. II

Site is natural, smoothed, rounded with noticeable stratigraphic features, perhaps involving Carboniferous & fossilized layers; a sense of being "by itself" is present. Geological elements seem important to site (i.e. faulting, fracturing, slanting stratigraphy). A rounded shape, very solid, involving rock or stone & something perched is present w/ the site.

Suggestive of pithouse & Indian & wagon trails, checkpoints on emigrant trails, etc.

## Pivot Rock

As far back as the late 1800's, stagecoach passengers were stopping on their way into Eureka Springs, Arkansas, to see Pivot Rock.

Visitors still come to have a look at this natural oddity believed to have been shaped by water erosion at the end of the Ice Age. With an 18-foot-wide top resting on a tiny, 18-inch base, it seems to defy the law of gravity.

At Pivot Rock Farms, the rock and a natural bridge formation are connected by hiking trails. Owner Bill Goff says that people come to enjoy nature along the trails as much as they come to see the main attractions.

According to Goff, the area became an attraction by 1895, as stagecoaches made their way from Missouri to Arkansas. "Halfway up the hill into town (Eureka Springs), the drivers would stop at the springs, stretch their legs, and give the horses water," he explains. During the rest stop, the wandering passengers eventually discovered the formations.

Goff's in-laws, Robert and Beulah Mullins, bought the land in 1927. Some of the visitors of that era would pack a lunch at the Crescent Hotel in Eureka Springs and hire horses from the livery stable that they could ride out to the farm.

Over the years, many legends have been associated with the area around Pivot Rock. One claims that it served as a hide-out for Jesse James.

Pivot Rock Farms is at the end of Pivot Rock Road off State 62 West. Admission is charged. For information, write to Pivot Rock Farms, Route 4, Box 24, Eureka Springs, Arkansas 72632; or telephone (501) 253-8860.
